01 PROFESSIONAL PROFILE

A professional trained in systems analysis, departmental network administration, artificial intelligence, cybersecurity and web development. I combine an established background in operations leadership and team coordination with ongoing technical training to focus my career on IT systems and digital technologies.

02 TECHNICAL SKILLS AND TRAINING AREAS

- **Networks and systems:** departmental network administration and design; Internet fundamentals.
- **Cybersecurity:** advanced security in operational technology (OT) environments.
- **Web development:** PHP, ASP.NET and web services.
- **Artificial intelligence:** business applications, concepts, trends and prompt engineering.
- **Data and digital experience:** Power Query, Power Pivot, Power BI and UX/UI design.
- **Project management:** Agile Project Management, Scrum, Design Thinking and business digitalisation.

03 TECHNICAL EXPERIENCE

SAMPOL | Technical work placement

19-23 December 2025 · 80 hours of technical work placement in a business environment.

04 TRANSFERABLE MANAGEMENT EXPERIENCE

FB Banquet Manager | Cap Vermell Grand Hotel, Mallorca

March 2025 - present. Event operations management, resource planning, interdepartmental coordination, team supervision, inventory control, quality standards monitoring and incident resolution.

More than 23 years in high-end hospitality, with experience in leadership, organising operations and working with clients and suppliers.
